Danielle Peters

I help therapists and neuro-affirming businesses get more ideal clients through targeted marketing strategy and expert copywriting.
Antelope, California, United States

Summary

Hi, I'm Danielle. I'm a therapist turned copywriter.

I love helping other therapists and neurodivergent business owners build a business full of ideal clients through targeted marketing strategy and copywriting. I take all the writing off your plate so you can focus on the work you love to do.

As a therapist, I understand your business and as a copywriter, I know how to explain it in writing so that your future ideal clients are able to learn who you are and what it is you do.

I love working with business owners and therapists who feel the pressure to help more people but struggle with the writing involved in growing their business. I know you want your website copy to speak directly to your ideal clients so that they feel heard and understood before they even meet you.

If you are ready to take all of the writing involved in your business off your to-do list check out my website at www.therapycopy.com

and book a free consultation with me to figure out how I can help you bring more clients into your business.
