Deepika Arumugam

Certified Assistant Project Manager OIT and IT Major at BYU-Hawaii
Laie, Hawaii, United States

Summary

"As an IT student, I have practical expertise in student leadership and relationship management. In my role as a relationship manager in India, I coordinated with support teams to swiftly resolve technical difficulties and ensured that clients had dependable internet connections. I learned how to manage several projects at once and perform effectively under pressure from this experience.

I currently work at BYU-Hawaii as a Student Ambassador, where I plan events, conduct workshops, and guide other students. I like learning new things and developing others, especially when it comes to leadership and technology. I can't wait to network and take advantage of chances to advance my professional and IT abilities."
