Introduction to Cybersecurity

Angela S.

BS Computer Science
Valenzuela, National Capital Region, Philippines

Experience

SparkSoft Solutions, Inc.

Quality Assurance Intern

November 2024 - January 2025 (3 months)

Quezon City, National Capital Region, Philippines

- Conducted manual testing on a critical SaaS government project, performing functional, usability, and security assessments.
- Created and executed 100+ test cases, covering positive and negative scenarios to ensure system stability, UI functionality, and edge case handling.
- Performed in-depth security scans using OWASP ZAP, identified and documented critical vulnerabilities, and uploaded detailed reports for tracking and further action.
- Reported and tracked UI/UX issues via GitHub, driving continuous improvements.
- Initiated automation using Playwright, developing initial test scripts to improve testing efficiency.

Google Developer Student Clubs - University of the East Caloocan

Chief Operating Officer

January 2024 - June 2024 (6 months)

- Led some event preparations and ensured successful execution, initiating recruitment processes for Google Developer Student Clubs - University of the East Caloocan.
- Managed operations team, including finance, and served as a catalyst for effective communication among team members.
