Experience

TIP Casal Building
5 years 4 months

Software Quality Assurance
September 2023 - Present (1 year 4 months)

Developed with Django, a high-level Python web framework. Allows user registration, book borrowing, and tracks due return notifications. Provides librarian-specific features to add or edit book details, manage user accounts, and monitor library activities. Utilizes Django and SQLite for development, with HTML, CSS, and JavaScript for front-end design

Booking system
September 2023 - Present (1 year 4 months)

Developed a responsive booking system utilizing Bootstrap for front-end design to ensure optimal user experience across various devices. Implemented Firebase as the backend database for secure and scalable data storage and retrieval.

Food Ordering System With Dietary Recommendation
September 2019 - Present (5 years 4 months)

Web based food ordering system with dietary recommendations and content based filtering recommendations in Maya & Me Menu Selection. The primary objective is to optimize the food ordering process by offering personalized food suggestions that align with each customer's dietary preferences and restrictions. Leveraging user data such as preferences and order history, the system employs advanced techniques with Davinci Engine and GPT-3.5 Turbo - 0125 via OpenAI API to generate relevant and customized recommendations.
